

Using iPhone

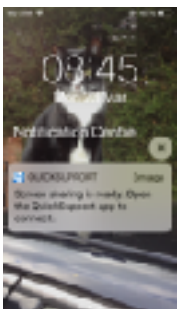

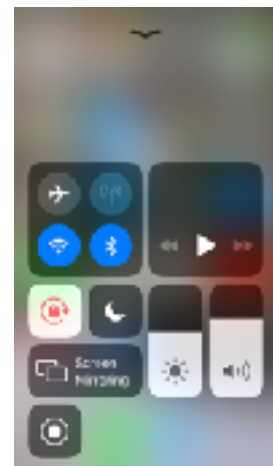

Alfie screen - Like a screen saver. Press Home button to see desktop.
(Home button will always take you back to Desktop)

Desktop screen - when press home button.
(Apps might be still running like still making a WhatsApp call)

Open an App .. Like WhatsApp .. it will appear until you close it .. home button.

Swipe Up (from Bottom of Home) - To allow remote support.
... Airplane mode - Should NOT be highlighted.
... Wifi Connected
... Brightness
... Volume (can use buttons on left)

Swipe Down (from Top of Home) - Shows notifications - Maybe News items.

Swipe Left (from Left of Home) - Shows Weather and recent News.
